WINT-R SHOPPING.-It has been many years since the initial winter month has been ushered in at as zerois a temperature as characterized the opening of the present month. Persons who delayed making their necessary winter purchases were caught unprepared, and the result has been no disadvantage to clothing men and furriers. In the latter department, the leading house in this city-Mesars, A. K. & F. K. Womrath's, No. 417 Arch street-has presented an unnaually animated scene for several days. Their large store is daily resorted to or hundreds of our ladies of wealth and fashion for the magnificent Furs which this house always displays in such profusion and elegance as no other attempts. And yet it is due to the proprietors to say that, in all the medium and minor grads of furs their stock is not surpassed, if it is equalled, by any other in the country. Indeed, it is no exeggeration to say that the stock now offered by the Mearn. Womrath presents inducements to purchasers in all grades and classes of Furs that are not found in any other, for the simple reason that they are the leading importers of and dealers in these articles in the United States, and have determined, in view of their proposed removal to their new store, to sell their goods at unprecedented low prices. They are seiling acts of furs from five dollars to one thou, gand dollars, having sold several se's at the latter price within the present week. It will not surprise us if they dispose of a million dollars' worth of furs between now and the 1st of January, 1868. Their assortment surpasses any Fur display that has ever been made in Philadelphia, and embraces in profuse variety muffs, tippets, collars, etc., in Russian Sable, Hud' son Bay Sable, Mink Sable, Royal Ermine, Chin chilla, Fitch, etc. of all the latest styles and superior finish. Their new Simia muff is a special favorite with ladies in mourning, so much so as to have ren dered necessary several additional importations. Their assortment of carriage and sleigh-robes and foot muffs is also very complete, and invites the preference of all who are choice in their taste in the selection of these articles. To give some idea of the extent of their stock in these articles, we may state that they offer robes in every grade, from a cat's skin to a

GREAT INDUCEMENTS are held out to the purchasers of Wheeler & Wilson's Highest Premium Lock-stitch Sewing Machines. Messrs, Peterson & Little are turnishing those now parchasing the Wheeler & Wilson with one of the Bruen Manufacturing Company's new cloth plates without any additional cost, and it can be applied to most of their old machines. Price \$10. The Wheeler & Wilson is the cheapest machine in the market. Call and examine it at No. 704 Chesnut street before making your purchases.

A SERIOUS FIGHT BETWEEN SAILORS .- Last night about 12 o'clock, a man came running in might about 12 o'clock, a man came running in breathless haste into the Second District Station, and stated that a sailor lay on the walk at Second and Shippen streets, frightfully stabbed. Officers immediately started out with a stretcher, and finding the man as stated, carried him to the Hospital. He gave his name as Charles Winters, keeper of a sailors' boarding house at Front and Spruce streets. His face was terribly lacerated, the eyes almost cut out, and a long gash extended along the left side of the neck, just escaping the juxular vein. The apa long gash extended along the left side of the neck, just escaping the jugular vein. The appearance of the man was frightful; his face was covered with blood, which kept flowing out of his many wounds; his hair was matted with clotted blood, and his clothes were saturated. He said that another sailor had stabbed him; and giving the locality where the would-be murderer would probably be found, Officers Leavitt and Conroy, of the Second District, started for it. They arrested a man who gave his name as McCarty, but who is known as William Brophy, a sailor.

He was taken to the Station, and gave the following details of the affray:—He, in company with Winters and two other "joliy tars," had drank together in a saloon in Shippen street, below Fourth; they went out together, Brophy and Winters side by side, down Sulppen street. They had not gone far, when Brophy alleges that Winters drew out a billy, or something similar, intending to use it upon him. "If that's your game," cried Brophy, "come on," and he drew out a large sheath-knife, which all sailors carry. The fight commenced, and flercely raged

The officers, thinking that Brophy's story of The officers, thinking that Brophy's story of Winter's using a billy or other deadly weapon was simply fabricated for the purpose of shielding himself from the full justice which such a murderous assault would entail, went back to the place where the wounded man was found, to look for the weapon. Not finding it, they went up to the Hospital, and, searching his pockets, drew forth a heavy sung-shot; the leaden ball weighed more than a pound, was studded with nails, and was attached to a thick line. One blow from this deadly weapon upon the head would be sufficient to crack the skull. Notwithstanding certain idle reports to the contrary, we continue importing Hayana Cigars, as we have done for the last forty years.

Their high cost, however, renders it absolutely needful to introduce a substitute that shall be EQUAL IN QUALITY, but which can BE RETAILED AT MUCH LOWER PRICE.

To this end we are manufacturing Standard Cigars of a quality never before attempted in this country, including grades made entirely of the choicest Vuelta Abajo leaf, such as is worked only at Havana in the factories of most renown; and we are working it ON THEIR SYSTEM, "pure and undefiled."

FROM WASHINGTON THIS P. M.

General Hancock's Change of Front-The Currency Board-Important from South Carolina-Success of the Convention-Congressional Doings, Etc. Etc. Etc.

[SPECIAL DESPATCHES TO EVENING THEOGRAPH.] WASHINGTON, Dec. 5. From South Carelina-The Convention

Carried. Returns, nearly complete, from twenty districts in South Carolina, show that 51,481 votes have been cast in those districts, showing a majority of the non-voters therein of 6294. The seven districts from which returns have not been received contain 28,860 registere and careful estimates indicate that 15,248 votes have been cast in those districts, giving a ma jority of the non-voters therein of 1636, which insures the Convention beyond doubt. These majorities will be increased rather than diminished by official returns. About 2000 votes were cast against the Convention.

The Currency Contraction. The House Committee of Ways and Means this morning agreed to report a bill to take away from Secretary McCulloch further power to contract the currency.

Boards Abolished. General Grant this morning assued an order discontinuing the boards for the examination of newly appointed officers for the army, on the 31st of December; and thereafter candidates for appointment will be ordered for examination as follows:—For cavalry, to Carlisle Barracks, Pa.; for artillery, to Fortress Monroe; for infantry, Governor's Island, New York.

The three senior officers at each post will constitute the Boards whenever candidates are ordered before them for examination. On discontinuing present Boards the retired officers on duty as memoers are relieved, and will pro-ceed to their homes, and regimental officers will join their commands.

Visitors to the White House. Judge Woodward and General Wm. McCaud less, of Pennsylvania, were among the visitors at the White House this morning. The Democrats seem to monopolize the attention of the Executive at this time. Few Republicans visit his Excellency just now.

Visit to General Grant. This morning a delegation from the United Presbyterian Church of Philadelphia—consisting of Rev. Joseph T. Cooper, D. D., Rev. J. B. Dales, D. D., and Rev. Mr. Watson, missionary to Egypt—waited on General Grant at the War Department. They were introduced by Brigadier-Genoral James A. Eakin, and after spending a short time in agreeable conversation with General Grant, left with very favorable impressions of the great soldier. The delegation afterwards visited the State Depart-ment, and laid before Secretary Seward the subject of the persecutions to which the missiona-ries of their Church had been subjected, in

General Hancock. The sudden backing down of Hancock in revoking that portion of his order directing General Mower to return to the command of his regiment, is attributed here to instructions from Grant, but nothing is known positively, as Grant's officers maintain perfect silence as to the character of the despatches sent yesterday to Mower by telegraph.

It is hardly possible that Grant will permit Hancock to reinstate officials removed by his predecessors, as this is in direct violation of Grant's order issued after Sheridan's removal.
